Problem with the dropdown

Hello!

Im trying this apparently cool menu on my site and I had a problem. I'm using the Ethno Orange template from Siteground, and I put my menu in the user3 position (this one horizontal down of the header). When I hover a menu item that has childs, the childs dont show.

I think that is because te menÑŠ in position "user3" is in the bottom of the "header" div, so the dropdown don't shows here.

Someone can help me?

Thanks!

PD: Sorry for my bad english :s
