Posted by admin - 2010/04/08 15:38  Hello, You can add the following CSS rules to your template CSS file:  .ux-menu a:hover{     color: red; } .ux-menu a:visited{     color: green; }  Regards, ARI Soft	ВТ
Posted by admin - 2010/04/08 15:38  Hello, You can add the following CSS rules to your template CSS file:  .ux-menu a:hover{     color: red; } .ux-menu a:visited{     color: green; }  Regards, ARI Soft	
You can add the following CSS rules to your template CSS file:  .ux-menu a:hover{     color: red; } .ux-menu a:visited{     color: green; }  Regards, ARI Soft	
.ux-menu a:hover{     color: red; } .ux-menu a:visited{     color: green; }  Regards, ARI Soft	Hello,
color: red; } .ux-menu a:visited{ color: green; }  Regards, ARI Soft	You can add the following CSS rules to your template CSS file:
Regards, ARI Soft  Re:text color Posted by carbonathus - 2010/04/08 16:25  Perfect !!!! I only had to change the order which you gave me : first a:visited and after a:hover :silly: And finally, all the .ux-menu are now in my template CSS, Like that, I can easily modify them directly in backend. Fabulous  Greetings  BT	color: red;
