What do I need to edit or add to the menu.min.css file to automatically center the menu?

Hello,

You can try to add the following CSS rules to template CSS file:

BODY #whitebox DIV.ux-menu-container

```
{
  text-align: center;
}
```

BODY .ux-menu-container .ux-menu-horizontal

```
{
  display: -moz-inline-stack;
  display: inline-block;
  zoom: 1;
  *display: inline;
}
```

PS: If it doesn't work, provide link to page where you use the module, please, that we can help you.

Hello,

Add the following CSS rules to "CSS Styles" parameter in module settings:

```
DIV.ux-menu-container
{
    text-align: center !important;
}
```

```
.ux-menu-container .ux-menu-horizontal
{
    display: inline-block;
}
```
