No submenu when Animate is \"No\"

Posted by almamun - 2010/06/06 07:26

Hi
Thanks for nice ARI Ext menu and your support here.
I've a problem, submenus wont show when Animation is disabled.

Hello,

Could you provide link to page where we can see this issue?

Regards,
ARI Soft

I have the same problem:

Website

Could i accelerate the menu with Animate=No?

Hello,

Download and upgrade the module, please.

Regards,
ARI Soft
