
Change Background Color

Posted by heilgenpahl - 2010/06/13 02:35

I love this menu but can't seem to figure out the following

1. How to change the background color to match my site. I need color #8BC525.
2. How to change the hoverover color from blue to a lighter green
3. How to change the font color to white.

Here is a link to my site: <http://174.132.221.8/~mrcf2192/>

Thanks!

Hello,

You can add the following CSS rules to template CSS file:

```
.ux-menu-container .ux-menu a
{
    background: #8BC525 none;
    color: #fff;
}
```

```
.ux-menu-container .ux-menu a:hover,
.ux-menu-container .ux-menu a:focus,
.ux-menu-container .ux-menu a.ux-menu-link-hover
{
    background: #91FF91 none;
}
```

Thanks - now I've ended up changing my template so need to do the following:

1. Change font & font size & font color
2. Change background for basic menu & when I hover
3. Change color of arrows from blue to green
4. Remove the dots on the left of the menu items - I'm sure they are coming from my template.

Thanks sooooo much for your help!

Hello,

Use the following CSS rules:

1.

```
.ux-menu-container .ux-menu LI A
{
  color: green;
  font-family: Tahoma;
}
```

you can define font size in module settings.

2.

```
.ux-menu-container .ux-menu LI A.ux-menu-link-hover,
.ux-menu-container .ux-menu LI A:hover,
.ux-menu-container .ux-menu LI A:focus
{
  background: red;
}
```

3.

It requires to modify /modules/mod_ariextmenu/mod_ariextmenu/js/css/images/menu-arrow-right.png file.

4.

```
.ux-menu-container .ux-menu LI
{
  background-image: none;
  padding-left: 0;
}
```

Awesome thank you!!!! The only thing I still can't seem to change is the default color of the menu. I think I'd just like it to be white like the background of the site.

Use the following CSS rule:

```
.ux-menu-container .ux-menu a
{
  background: #FFF none;
}
```
