
Text alignment and height

Posted by tubauwe - 2014/04/15 13:53

Hi,

I want to integrate the ARI Ext Menu to a website and I have some problems to customize the layout:

1. The height of the first level I set to 55px, but there's an additional space below in the same background color like in the attached image. If the second level is shown, it appears at the right position. How can I get rid of this additional space? Here it is another problem, that this space is in front of the submenu.

2. Inside the height of 55px I want to center the text vertical. How can I do that?

At the moment I use the following css-code inside the module:

```
.ux-menu-container UL.ux-menu LI.ux-menu-item-level-0,
.ux-menu-container UL.ux-menu LI A.ux-menu-link-level-0
{
border-style: none;
height: 55px;
}

.ux-menu-container UL.ux-menu LI.ux-menu-item-level-1,
.ux-menu-container UL.ux-menu LI A.ux-menu-link-level-1
{
border-style: none;
}
/* -- nur aufklappen, wenn Maus darüber -- */
UL.ux-menu-hidden
{
display: none !important;
}

UL.ux-menu SPAN.ux-menu-arrow
{
display: none;
}

Hello,

Send a link to a page where we can see the menu. It can be a conflict with site template styles.

Regards,
ARI Soft

Hi,

my page isn't online at the moment, because it isn't ready at the moment.

Here's the content of my css style sheet:

```
body {
margin: 0;
background-color: #4d4849;
font-family: "oswaldbook", Arial, Helvetica, sans-serif;
font-size: 12px;
color: #4D4948;;
line-height: 150%;
}

#header {
height: 80px;
background-color: #333031; }

#logo {
width: 960px;
margin: 0 auto;
padding-top: 10px;
padding-left: 20px;
}

#nav_background {
height: 55px;
background-color: #4d4849;
}

#nav {
width: 960px;
margin: 0 auto;
padding-left: 0px;
padding-top: 0px;
}

#nav a {
text-decoration: none;
color: #120a01;
font-weight: bold;
font-size: 20px;
text-transform: uppercase;
color: #c2c1c1;
padding-right: 20px;
}

#nav ul {
display: inline;
float: left;
margin: 0;
padding: 0;
}

#nav ul li {
display: inline;
float: left;
font-size: 1.0em;
line-height: 1em;
list-style-type: none;
margin: 0;
padding: 0;
}

#content_background {
min-height:650px;
background-image: url(../images/background.jpg);/* der Pfad zum Bild */
}
```

```
#content {
background-color: #ffffff;
width:960px;
min-height:650px;
margin: 0 auto;
padding-top: 10px;
padding-left: 10px;
padding-right: 10px;
padding-bottom: 10px;
}

#footer_background {
min-height: 120px;
background-color: #4d4849;
}

#footer {
width:960px;
margin: 0 auto;
padding-left: 10px;
padding-right: 10px;
padding-top: 10px;
}

.clearfloat {
clear:both;
height:0;
font-size: 1px;
line-height: 0px;
}

h1 {font-size: 20px;}
h2 {font-size: 16px;}
h3 {font-size: 14px;}

a {
text-decoration: none;
color: #120a01;
font-style: bold;
}
```

And here is my index.php:

Let us know when the menu is available online so we can investigate the problem.

Hi,

now my website is temporarily online here.

Thank you!

Regards.

Replace the following CSS rule:

```
.ux-menu-container UL.ux-menu LI.ux-menu-item-level-0,  
.ux-menu-container UL.ux-menu LI A.ux-menu-link-level-0  
{  
  border-style: none;  
  height: 55px;  
}
```

with the following one:

```
.ux-menu-container UL.ux-menu LI A.ux-menu-link-level-0  
{  
  line-height: 34px;  
  border-style: none;  
}
```
