Submenu keeps appearing on the left

Posted by clayd - 2014/05/09 02:01

_____

Hi,
for some unknown reason my sub-menu doesn't appear directly under the parent link. It keeps showing up on the left side.

Here a link to the site: *I removed the link*

Anyone know I can fix this?

_____

Problem fixed.
The template CSS was messing with that of the module :silly:
