## menu capitalization letters not working

Posted by debyf - 2014/05/16 14:22

---

Hi, I don't manage to get the capitalized letters working...?  
Also how can I use the same style as the original in the website? css ...nav\_pills  
See the picture - 1st line original menu in template; 2nd line ari ext menu  
Site name is Columbiaan.nl/cms

Thanks!! ;) <http://www.ari-soft.com/images/fbfiles/images/Capture.jpg>

---

Hello,

Set "Main menu items styles -> Text transform" parameter to "Uppercase".

Regards,  
ARI Soft
