
The sub menu shown incomplete, how to solve it

Posted by sonicwty - 2014/05/26 09:38

The sub menu cannot be shown completely when there is an object located as belows photo

Can anyone tell me how to solve it with thanks..

Hello,

Send a link to a page where the problem occurs.

Regards,
ARI Soft

Dear Admin,

Since it is intranet only, i cannot share the link of page to you.
What should i do to check the error by myself???
Is it lead from the template of buzz ???

It can be a problem with site template styles. We will investigate the problem in more details if you reproduce the problem on a public server.

As i am a newbie for joomla, using joomla version 1.7

May I attach template styles file here or what should i do to check with the template styles?
