
Menu is cut off with vertical direction

Posted by mlebek - 2010/06/24 07:37

I use ja_purity with vertical ARI Ext Menu in left position but Submenus are cut off.

Webpage

Hello,

This is a problem with template CSS styles. Add the following CSS rules to template CSS file:

```
body #js_col1
{
    overflow: visible;
}

#ja-col1 ul.ux-menu li
{
    background-image: none;
    padding-left: 0;
}
```

Regards,
ARI Soft

I added

```
body #ja-col1
{
    overflow: visible;
}

#ja-col1 ul.ux-menu li
{
    background-image: none;
    padding-left: 0;
    overflow: visible;
}
```

(that were typos in first line?)

to /templates/ja_purity/css/template.css and its working.

Many Thanks...

Yes, sorry, it was a misspelling.

Regards,
ARI Soft
