## Menu Width Problem

Posted by kinzar1 - 2014/07/31 18:29

---

Hello,

I can't figure this out. Please help! <http://ipulidaho.org/health> under the Family to Family Health.... menu, the last link under that menu is not completely visible.

The Code:

```
.ux-menu-container .ux-menu a.ux-menu-link-last
{
    width: 200px;
}
```

Fixes it but only does so for the last one of the menu. It also extends the last item of the main menu look: <http://ipulidaho.org/education> Youth Corner. I need a fix that will have the same width for all vertical menus regardless of text length and will wrap the text under once it hits that length.

Thanks!

Hello,

You can read here how to change menu items width.

Regards,  
ARI Soft
