HI

Thanks for this menu extension...

I have one small issue.

I cant get the submenu to show when it is horizontal. When i hover over i can see the hidden attribute disappear.

It is the same in chrome, firefox and internet explore

When i set it up to vertical it works

The page can bee seen here <http://rh-polering.dk/>

Sincerely RenÃ©

Hello,

This problem with site template styles. Add the following CSS rule to fix the problem:

`BODY #header {overflow: visible;}`
