## Space before first menu entry

Posted by eds - 2014/09/22 13:02

---

Hi!

I have tried to look in the forum for a related topic, but couldn't find anything.

I am using mod\_ariextmenu 2.0.8 for Joomla 1.5.23.

Everything is fine, except a space before the first entry of my menu.

I would like to align it to the left, but I cannot find where to alter the code (in CSS, a file that manages the template ?).

Could someone help me on this?

It is about a 0.5mm space between the left border of the frame of my template where the menu appears and the first entry of the menu.

<http://www.ari-soft.com/images/fbfiles/images/menu-596a2e3dee4489afa8a49008b2b76f5b.jpg>

Thank you in advance.

Hello,

Send a link to a page with the menu.

Regards,  
ARI Soft
