## menu icons doesn't show

Posted by xplosion - 2015/01/05 10:07

---

Hi, I have the latest version of ariextmenu module (2.2.11) over a fresh installation of joomla 3.3.6  
I want to insert/assign the icons on every menu item through:  
Menu > Main menu > Home (item) > Dropdown Menu Options > Menu Icon  
It seems that none of the fontawesome icons it display.  
It's a bug ?

Thanks

=====

Hello,

The module doesn't support icons for menu items.

Hi

I really appreciate your Ext Menu and i'm using it on my website [www.avalon-instruments.com](http://www.avalon-instruments.com)

I would like to know if you're thinking to update your extension for support the icons.

With this more option your extension will be really perfect.

:)

Best regards

Hello,

We will think about adding this feature in a future version of the extension.

Great!

Thank you very much!

:laugh:
