## Horizontal Menu not working by default

Posted by Enqunot - 2015/03/12 05:33

---

I wanted to have 3 level menus, so i used this extension. So I published the menu (horizontal) in a normal menu position. But when i open it in the front end, i see a small area which i need to hover, to open the menus.

Can't i just publish the menu in a default menu position and get the menu's side by side just like any other default menu.

Hello,

Where we can see the problem? It can be a problem with site template.

Regards,  
ARI Soft
