Hello,

Send a link to a page where the problem occurs.

You need to check the z-index of those two menus. The z-index of the horizontal menu needs to be a higher value than the z-index value of the vertical menu.

Hope that helps.

Add the following code to "CSS Styles" parameter in module settings:

```
#{ $id } LI.ux-menu-item-main {width: 170px;}
```
