
Change Menu Item border from white to black

Posted by tomowen143 - 2015/06/17 17:55

I have black menu and items with white text on a black background. I can not find settings to change the borders from white to black.

Anyone help me out on this. See attached image.

Thanks in advance

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

```
.ux-menu LI A {border-style: none !important;}
```

Regards,
ARI Soft
