Make the Main menu bar wider

Posted by srmorgan - 2015/07/09 13:48

_____

High My page is 1200px and the menu bar shows up to small. How do i make it the same width as the page. Please see the attached image for an example.

_____

Hello,

Read this post please. It contains information how to change width of menu items.

Regards,
ARI Soft
