
1px margin next to menu

Posted by Yifou - 2015/12/10 19:46

Hello,
Thanks for this plug-in,
I'd like to know how to delete the 1px margin that appears on the right between the menu and the sub-menu ?

<http://www.ari-soft.com/images/fbfiles/images/margin.jpg>

I tried a margin-right:-1px; but not satisfying on IE

François

Hello,

Add the following CSS rule to "CSS Styles" parameter in module settings:

```
.ux-menu-vertical .ux-menu-sub {margin-left:-1px}
```

Thanks for your answer but negative margin doesn't work on Internet Explorer (all versions)
Is there any other solution ?

We checked it in IE 11 and don't see a gap:

Try to use the following CSS rule instead of the previous one:

`.ux-menu-vertical .ux-menu-sub LI {margin-left:-1px}`

still doesn't make it on IE10
I think it's negative-margin

What if you set it like this instead?

`.ux-menu-vertical .ux-menu-sub {left: 191px !important;}`

or if you set a fixed width to the `.ux-menu-vertical` element and then push the `.ux-menu-sub` element as far left as the width as the `.ux-menu-vertical` is wide? Use `!important` to override any default code.

yes this code works
although the Slide transition is weird

Hi, I have the same problem, but with Firefox last version and IE11.
I try to put the suggested string in CSS styles wihtout result..
Any other idea?? http://www.ari-soft.com/images/fbfiles/images/Cattura_1.jpg

Sorry, is not exactly the same problem...
I would lihe don't see the border

Re:1px margin next to menu

Posted by admin - 2016/02/08 06:25

Add the following CSS rule to remove all borders:

```
UL.ux-menu LI A {border-style: none !important;}
```

Solved..
now work fine
If I will have other question on this module can I ask to you?

Best regards
