Hello,

Add the following CSS rules to "CSS Styles" parameter in module settings:

```
#navigationmenu .ux-menu-container {text-align: center;top: 15px;}
#navigationmenu .ux-menu-container .ux-menu {display: inline-block;}
```

Regards,
ARI Soft

Salutes, that's great and I just prefer it to be in left side, so I just replaced to left - THANK YOU for your quick response
