Hi,

ARI Ext Sub Menu drop down on hovering suddenly stopped working on web site http://www.reklamiranje-firme-na-internetu.com.

I have tried to fix it but nothing works.

Ari Soft can you help me?

Thanks in advance.

Hello,

It seems this is a problem with "ddaccordion" extension. Try to temporary disable it.

Regards,
ARI Soft

Hello ARI Soft,

Thank you so much.

Yes, "ddaccordion" extension was problem, when I disabled it menu start working perfect.

Thank you for such a fast response, for your effort, for helping, for your altruism...

I love your menu, it's perfect, it's simple, it's effective, it's best...

A lot of success in the work,
