Hello,

The extension is compatible with Joomla! 3.6.0.

I have just upgraded to Joomla 3.6.0 and my sub-menus have started wrapping onto the next line, where they never did before - any ideas?

Hello,

Where we can see the problem?

My site is
www.kemble.co.uk
And the issue is on the tab
Parish Council
Minutes
where it used to show the year on the same line.
Thanks

Add the following CSS rule to "CSS Styles" parameter in module settings:

.ux-menu A {white-space:nowrap!important;}
