
Space between Buttons in horizontal menu

Posted by hovmedia - 2010/08/06 18:51

Hi!

got some help from you on this page earilier. But now I have changed template and a new issue appeared. I found a solution for your other menu, but not on the ext menu.

<http://alternativoasen.no/>

As you can see I got some space between the horisontal buttons :huh:

My page is <http://sksdb.omu.edu.tr>

You can see the spaces between buttons, it looks bad.

To hovmedia and msdunar:

Use the following CSS rule:

```
.ux-menu-container .ux-menu LI
{
    margin: 0;
}
```

Regards,
ARI Soft

Hello,

Provide link to page where we can see this issue.

Regards,
ARI Soft
