
Verticle menu display problems

Posted by nicotraut - 2010/09/02 07:09

Hi. I really like this mod, but I have the following problem with it and hope you can help me.
I have got my module on my left module position and it displays but the sub menus seems to cut of behind the article content. Is there anyway I can fix this?

http://www.visualsportstalent.co.za/index.php?option=com_content&view=frontpage&Itemid=3
If you want to have a look.

Hello,

Add the following CSS rule:

```
body .art-contentLayout .art-sidebar1
{
    overflow: visible;
}

.art-sidebar1 .ux-menu LI
{
    padding: 0;
    margin: 0;
}
```

Regards,
ARI Soft
