
it just shows sub-items list , no dropdown

Posted by daneshvaran - 2010/09/30 01:41

I installed ARI-Ext-menu module , I don't know how to configure this module to appear subitems under menus just like demo :(I don't know much about css...
please somebody help me out

Hello,

Just create sub-menu items in Joomla! menu manager. You can read about it [here](#). If you have any problem with showing menu on frontend, provide link to page where we can see this issue.

Regards,
ARI Soft
