
Font color of parent once moved to sub menu

Posted by Frost - 2010/10/02 05:44

Hi,

I'm attempting to get the menu looking the way I'd like. I have a dark background menu and so I need to have a light font color. My submenus are light in color, so when I hover over a submenu the font is darker. However, when I move off that submenu, the original light colored font is active once more which makes the font blend into the background of the box. How can I change that color? I've attached a screen shot to demonstrate.

thanks. <http://www.ari-soft.com/images/fbfiles/images/menu-1a9fe0e4f3aaf4a535ec22b028b39caa.jpg>

Hello,

Provide link to page where we can see the menu that we can help.

Regards,
ARI Soft
