---

i am using ari quiz lite
how can i display full results on frontend after quiz after the test is complete?
on clicking on view result is dont http://www.ari-soft.com/images/fbfiles/files/print.doc display
while in admin section its working properly

kindly help
thanx

"ARI Quiz Lite" doesn't support this ability.

You can create necessary email template(s) in "Text Templates" section on component backend and assign them with "Successful Email Template" and "Failed Email Template" parameters in quiz settings. The extension will send mail based on assign text template.

PS: You can install local mail server that test mail functionality.
