
display some selected

Posted by kkshansid - 2011/02/19 16:53

is it possible to feed 100 and in quiz display 10 out of 100 everytime?
if it is possible kindly help me how?
thanx

Hello,

Set "Question Count" parameter to "10" and enable "Random Question" parameter in quiz settings.

Hello!

I have the same question / problem.
I made the above changes but it still shows me all the questions.
Total Time: 400
Passed Score: 50
Question Count: 20
Question Time: 0
Random Question: Yes

Each question has a score = 5

Time is displayed ok.
Should i change something else to randomly select only 20 of the 36 questions added?

Thanks!

in quiz settings u write question count 20
in this quiz add 40 questions
in this way only 20 questions out of 40 will be displayed everytime

Hello alis13 ,

With these settings the extension should select 20 questions in random order. If it doesn't work in this way, check that you use the latest version of the extension (v. 1.1.0). If it doesn't help, provide temporary access to your Joomla! backend by email and we will investigate this issue.
