Updateing Quiz Questions

Posted by m_e - 2011/03/24 16:40

Good evening,

since I cant use ARI QUIZ (full version) for Joomla 1.6 yet, I decided to go with ARI Quiz Lite for now.

But, while I was creating the questions for the quizzes I found out that as soon as I have started to quiz once I cant add more questions to the quiz. (I can add them but they wont show up in the quiz itself)

Well thats logic since you dont want to manipulate the quiz after user have already completed the quiz. BUT I also tried to delete all results from previous quizes by emptying the tables: "jos16_ariquizstatistics" and "jos16_ariquizstatisticsinfo".

But still I cant add new questions to the existing quiz.

Any ideas?

Thanks in advance!

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate the problem?

Regards,
ARI Soft

I got it working!

I had a limit in the question category for some reason...

Thanks anyways for your support!
