
Name and adress information in resultat mail

Posted by Renee79 - 2011/04/05 08:27

Hi!

Can I change quiz result that name and adress information is writable or is there a other way? I want to have the result from my customer and theirs name and adress.

=====

Hello,

The extension doesn't provide this ability, but it is open source and you can modify it for your needs.

Regards,
ARI Soft
