
\ "User has already taken this quiz!!

Posted by albian - 2011/05/10 16:15

Hi, I'm new at this neighborhood and want to know how to prevent a user from taking a quiz more than once I'd want the ARI Quz to show a message like "Hi, , you have already taken this quiz". Please someone tell me how to do this. Thanks in advance.

Hello,

Set "Attempt Count" parameter in quiz settings to "1". In this case registered users can take a quiz only once.

Regards,
ARI Soft

Hi, yeah, I have donde this and effectively, a registered user that has already taken a quiz can't take it again. What I don't know how to do is show a message to the registered user notifying this.

It requires custom development if you want to show the message.

Oh, I see.. could you give me a glance on how to do this? And, could you add this feature in future versions of this cool component?

See \components\com_ariquizlite\frontend_pages\quiz.php and \components\com_ariquizlite\view\quiz.html.php files.

You can also submit feature request here and will think about implementation of this feature in a future release.

Regards,
ARI Soft
