Hello,

It seems you use PHP 5.3+. You can install PHP Settings plugin and override "error_reporting" PHP option with help the plugin. Set "error_reporting" to 22527 value.

Good evening.

Thanks for your immediate reply.

I installed that plugin to override PHP settings. I uninstalled and reinstalled Ari Quiz Lite I get the message that it was installed succesfully but I still get that "error". Am I doing sth wrong?

Thank you very much
Jan

We can investigate the problem if you provide temporary access to your Joomla! backend by email.
