Looking for Frensh translation files

Posted by parpins - 2011/06/16 16:37
_____

Hi,

I'm looking for french translation file
For ARI Quiz lite.

I someone has already make it, I enjoyed have it.
you can send me translation file to:
parpins@hotmail.com

If I see errors I will fix it and I can give you back the files.

regards,

==

_____

Do you need it for "ARI Quiz Lite" or "ARI Quiz"?

Regards,
ARI Soft

_____

"ARI Quiz" contains French translation for frontend part. You can activate it in "Components -> ARI Quiz -> Languages
Frontend" page on Joomla! backend.

Regards,

ARI Soft

Oh sorry, i didn't see it, only the backend files...
It's ok now for the frontend BUT as there are already translation for the backend, i would appreciate to find also the french one. Maybe in the future ? Isn't it ?

Thank you so much for you quick reply !

_____

The extension supports ability to create your own translation. For this click "Add" button on "Languages" page, translate necessary message and save new translation or export existing language with help "Export" button, translate it on local machine and then import with help "Import" button.

Regards,
ARI Soft

_____

Yes i already saw it but if you o someone would have already made it, it would have be easier and faster to integrate it as i don't want to reinvent the wheel.
And for your client target it can be a way to enlarge it ;-)

_____

I think Iâ€™m going to write it
But I'm waiting for ARI Quizz 3.0
I have only 1.6 joomla website and for the moment my purchase is unfortunately very useless :(
ARI team says to me by mail, 3.0 should be ready this week.
If I write French translation file for back end I will give you.
