## Quiz redirects to homepage

Hiya,

After answering the first question in a quiz, it seems to redirect me to the homepage of my site, displaying the quiz at the bottom of the page.

It's pulling the homepage itemID from somewhere, but I can't seem to figure out where.

Any help appreciated,  
Thanks.

Hello,

Do you use "ARI Quiz" or "ARI Quiz Lite"?

Could you provide temporary access to your J! backend by email that we can investigate the problem?

I've emailed you with the login details.

Thanks for your help!

EDIT: Found out the problem! It was user error. In my link, I had capitalised the itemID wrong.

Sorry!
