

Question formed as a schema

Posted by fribse - 2011/07/30 08:33

Hi Guys

I have a question I would like to show as a schema:

| | Col1 | Col2 | Col3 |
|------|------|------|------|
| Row1 | Q1 | info | info |
| Row2 | info | Q2 | info |
| Row3 | Q3 | info | Q4 |

As the info's and questions correlate to each other, it's quite important to keep the schema form.

I had hope to be able to use the free form, and have multiple answers, but that seems undooable.

So, any suggestions on how to solve this?

=====

Hello,

Sorry, but the extension doesn't support described question type.

Regards,
ARI Soft
