Hi,
I've purchased v 2.9.10. Will you send me a link to download the new version 2.10.0 with license key for my domain bgtestove.com and localhost so I can use Joomla 1.6.x and 1.7.x?

Thank you!

Hello,

The latest version of the extension is available in "Member Area" on our site. BTW, it doesn't require a license key anymore.
