change the layout/design

Posted by iam new - 2011/10/14 02:11

---

i am new in joomla 1.6 ,i just started couple of week ago. i have used ari quiz lite extension and happy with it. My problem is i need to change slightly the layout/design of the quiz, everthing else is find.

i need to add 1 more column because i need to make the time remaining a little bit bigger and add the mark on the spot so when the student could stop the quiz when they already know the did not passed the mark.

i kinda a bit lost so me where i could change the layout of the quiz?

thank you...

Hello,

See \components\com_ariquizlite\view\question.html.php file.

Regards,
ARI Soft
