Ari Quiz Lite backend doesn\'t work in Joomla 2.5
Posted by fribse - 2012/01/26 13:55

_____

in FF i get an error:
Firefox has detected that the server is redirecting the request for this address in a way that will never complete.

In IE, I just get an anonymous error.

Haven't tested frontend yet.

Could you provide a temporary access to your J! backend by email and a link to a page where we can see errors so we can investigate it?

See warning messages please. They are generated by Joomla! files, not by "ARI Quiz Lite" files.

Ah, you're right, and it's only warnings, so it should be ok, I've posted it at the Joomla forum, to see if others see the same warnings.

Hi I am also getting this error in the backend component links

Firefox has detected that the server is redirecting the request for this address in a way that will never complete.

I am using joomla 2.5

Will someone help me on this issue?

_____

Hello,

Do you use the latest version of the extension (1.1.7) ?
