Hi,
ARI Quiz Lite installed smoothly. Compenent open. Pages comes the message can not be found. What should I do?
I would like to help.

Hi,
Thank you for the quick reply.
Firefoxta page is empty. If Explorer is as follows: page not found message. http://www.ari-soft.com/images/fbfiles/images/ekran.jpg

Check that you use the latest version of the extension (v. 1.1.6). If it doesn't help, we can investigate an issue if you provide a temporary access to your J! backend by email.

Hi,
the system is working thanks to you. But as yet been able to add questions. Do you have a pipe on creating a video? I tried hard
