# How to change text template

Posted by JeanMarcG - 2009/09/30 20:03

---

Hi,

I'm trying to change the default text template. Every time I apply modification, editor (JCE ou tiny) removes all the formatting tags. I just need simple things like bold text, break line. How can I do ?

Thanks for your response

Jean Marc

Hello,

It was a bug, but we fixed it. Download the component again and re-install it, please.

Regards,
ARI Soft
