
instruction for create first TEST

Posted by serj - 2009/11/12 08:16

Good day. Could you help me create my first test with help ari quiz lite. I created some test where is name test, category test and I created template question.

When I visit my site I see only category and text test and button continue without variant answered. <http://www.ari-soft.com/images/fbfiles/images/test1.jpg>

Hello,

Populate quiz with questions. For this click 'View' link in quizzes grid in 'Questions' column.

Regards,
