
\\"Successful Template\\" only after 10 good answers

Posted by philippegm - 2012/06/20 07:20

Hello

I try to use Quiz lite

I would like to see the "Successful Template" only after 10 good answers

Can you help me please?

Hello,

The extension can show different text templates based on earned score (in percent). Text templates can be created in "Text templates" section on component backend and assigned in quiz settings (see "Successful Template" and "Failed Template" parameters). Minimum successful score in percent is entered in "Passed Score" parameter in module settings.

Regards,

ARI Soft

Thank for this quick answer!

It was ok for the text template

But i did not find the information about % in "Passed Score"

What is the good format solution for this parameter?

25%

25

0,25

It accepts integer numbers from 0 to 100.
