
Can't create new Question Template?

Posted by ypouliot - 2009/12/30 23:30

Howdy. I'm unable to create a new Question Template in Quiz Lite v1.0.4. Specifically, if I try to select "Multiple Question" for Question Type, I am immediately brought back to Quiz List. Am I missing something?

Cheers and thanks for your valuable products!

Hello,

We can't reproduce this issue on our test server. You can try it on our demo site. What browser do you use?

IE 8 and FF 3.5.6. I can provide you access to the dev site if you want -- just indicate where I can send the login info.
