Can\'t create single answer QTemplate in Lite?

Posted by ypouliot - 2010/01/09 19:21

_____

Howdy again! I seem to be unable to create a single answer question in Quiz Lite where Disable Question Validation is checked, i.e.

1. question type = single
2. disable question validation = checked
3. delete answers to leave only a single answer and select the remaining answer as the correct one

when clicking on Apply, nothing happens and the question is not created. Seems like checking Validation prevents the question from being saved, as I can create the question if I leave Validation unchecked.

Thanks and cheers,

Y

_____

Download the latest version of ARI Quiz Lite and re-install please. It should resolve this issue.

Regards,
ARI Soft
