
SEF URL

Posted by JeanMarcG - 2010/01/23 11:07

Hi,

i'm using joomla core SEF (not apache rewriting mode) and ARI quiz lite doesn't seem to support this mode. Can you tell me if there is a way to get it working with sef or at least if you know how to skip ariQuiz lite from the url rewriting by joomla core SEF.

thanks

Jean Marc

Hello,

Could you explain which problem you have when SEF without mod_rewrite is enabled? Does component load incorrect page or what happens? We tried to use the extension in this SEF mode and it seems that everything work fine.

Hi,

I got a 404 error

with sef options disabled, url looks like : "http://.../index.php?option=com_ariquizlite&Itemid=69"

and with sef options enabled : "http://.../index.php?Itemid=69&option="

As you can see option parameter has no value.

Hello,

Could you provide information, where we can see this issue? If it's private, you can provide it by email.

Regards,
ARI Soft

Hi,

I purged the cache and now it works like a breeze...not sure to understand why, but it works even if url are not very friendly

best regards ans thanks
