## Quiz not showing up on front end

Hi ARI,

I downloaded Quiz Lite, attempted to create a quiz "How well do you know Livingston?", however I cannot get the quiz to show on the front end.

The quiz category is "Livingston", Question Category is "Top10 Categories", and I put in 10 "Single Questions". I hooked all to a menu item at the bottom of my page "Quiz", yet I get the message "Selected Quiz not available, contact with Administrator".

The site is LivingstonGuides.com. Attached is an image file that shows the menu and the message. Any suggestions?

Any suggestions as to what I missed? <http://www.ari-soft.com/images/fbfiles/images/QuizIssue.png>

Hello,

Could you provide a temporary access to your Joomla! backend by email so we can investigate the problem?
