ARI Quiz Lite problem Posted by adam.maxwell - 2012/09/26 07:18

I have installed ARI Quiz Lite into my site and the link to the quiz works fine, but when I click the 'continue button' I get this error

The page isn't redirecting properly

Firefox has detected that the server is redirecting the request for this address in a way that will never complete.

This problem can sometimes be caused by disabling or refusing to accept cookies.

The URL is doing some kind of infinite loop:

Hello,

We can investigate the problem if you provide a link to a page where we can see it and a temporary access to your J! backend by email.
