Hi experts,  
After submitting answer for a question , can I get back to the previous question?  
I have seen the demo but could not able to find this feature.

Could you please advise how and where I can enable this feature ?

Thanks

Hello,

Currently the extension doesn't support "Previous" button. It will be implemented in a future release.

Ok; I definitely need the mentioned previous button. Or a 'go to question x' button.

reason: users want to skip a difficult question and come back later when there is time left.

7 months ago you were talking about next release ;), can you give me an indication when it is in the product?

Thanks!

kind regards, Daan

Hello,

"ARI Quiz" supports next/previous buttons and ability to navigate between pages with questions.

Original post is about "ARI Quiz" extension.

BTW, "ARI Quiz Lite" can be upgrade to "ARI Quiz".
