---

Can the ari-soft staff show the sample csv import file?

I need to see how my current questions could be fit in your format. And the import support utf-8 input?

"ARI Quiz Lite" doesn't support ability to import questions from CSV files. It is supported by "ARI Quiz".

Hello,  
Where can i find an example of CSV file for ari data table?

Hello,

If you mean CSV file for graph widgets, you can find a link to a sample CSV file in "Description" section on module settings page.
