Time on application and database servers are different on your hosting so this problem occurs for time limited quizzes.

This date 1999-11-30 00:00:00 shows when somebody doesn't do the quiz, just leaves the quiz opened and its time ends.

I have a question - where can I change this date for more thought-provoking e.g. 0000-00-00 (I see that all people have the same date 1999-11-30 00:00:00, so it doesn't depend on server settings).

Thanks in advance for answering the problem.

Hello,

Could you provide a link to a quiz where we can see the problem and a temporary access to your J! backend by email so we can investigate the problem?
